

BOPP TAPE SHEAR TESTER
CATALOGUE NO.: GEC-P40415

Tape Shear Tester is used to test the quality of BOPP tape in terms of its resistance to slippage / shear.

BOPP tapes are generally used as Packing Tapes wherein there are applied on the flaps of closed cartons.

Corrugated cartons have an inbuilt tendency to spring-up and open. Good shear strength will ensure that your cartons reach their destination intact.

Application:

- BOPP Tape manufacturers
- Heavy end-users

APPLICABLE STANDARDS:

ASTM D 3654

Salient Features:

- Sturdy in construction and easy to operate.
- Precisely machined to International Standards.
- A precise and reliable machine.
- High quality instrument with lower price.
- Increases the holding power of packing tape.
- Increases shear resistance of tape.
- Easiest and less expensive method of determining the quality of different batches of tapes.
